World's First Intelligent Powered Stapling Platform

Redefine Surgical Stapling with Innovation

The concept of IntoCare™ Powered Stapling Platform originates from the deepest concern and consideration for patients as well as surgeons.

IntoCare™ Powered Stapling Platform enables surgeons to focus more on the procedure and patient with consistent clinical outcomes. Our Universal Powered Handle is designed to connect our full range of disposable staplers that reduces the need to change various instruments during the procedure, enhances procedure time and reduces total procedural cost while shortening the learning curve.

IntoCare™ is dedicated to unsurpassed quality and performance to redefine surgical stapling with innovation.

Intelligent Program Control
guarantees safer surgery

Power Driven System
contributes to great
outcomes with minimal effort

Optimized Structure
boosts confidence in
anastomosis

Standardized Platform
offers an ergonomic, intuitive,
and economic solution

IntoCare™

Disposable Powered Handle

PHDS01A

Disposable

- Condition:** Sterile
- Shelf-life:** Three Years
- Accessories:** Disposable Battery, Manual Tool, Discharging Component
- Packing Format:** 1Pc/Box, 5Boxes/Ctn

Intelligent Program Control

Reduce Mental Stress

- Self Check
- Self Identification
- Self Control
- Self Feedback

IntoCare™
Reusable Powered Handle

PHD01A
Reusable

- Condition:** Non-sterile
- Shelf-life:** Three Years
- Sterilization Limit:** 100 Times Steam Sterilization
- Accessories:** Battery Guide, Rechargeable Battery, Manual Tool
- Packing Format:** 1Pc/Box, 2Boxes/Ctn

IntoCare™
Battery Charger

PHDC02

- Condition:** Non-sterile
- Application:** Charge IntoCare™ Rechargeable Li-ion Battery
- Packing Format:** 1Pc/Box

IntoCare™
Instrument Case (OPTIONAL)

PHDA01

- Condition:** Non-sterile
- Application:** Protect IntoCare™ Reusable Powered Handle and Assist the Sterilization
- Packing Format:** 1Pc/Box

IntoCare™

Disposable Powered Circular Stapler

Powered Operation

POWERED CLOSING: 88.9% less distal movement to avoid tissue trauma

POWERED FIRING: 95% less firing force, 99% less distal movement to improve staple line integrity

POWERED OPENING: jaw automatically opens optimal distance after firing to avoid damage to anastomotic site

Straight Shaft

Standard Shaft

Extra Long Shaft

An Ergonomic, Smart, Intuitive and Intelligent Circular Stapler with E-Stapling Technology

Optimized Structure

Larger lumen size to avoid risk of stricture
 CROSS B shape staple formation to provide larger anastomotic area

Powered Circular Stapler

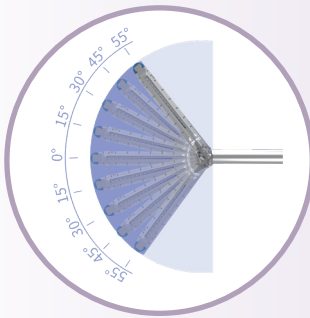

Type	Code	Cartridge Color	Shaft Length	Outer Diameter	Lumen Size	Open Staple Height	Adjustable Compressed Tissue Thickness	Packaging Format	Number of Staple

IntoCare™

Disposable Powered Endoscopic Linear Cutting Stapler

Optimal Structural Design

55 DEGREES BI-LATERAL ARTICULATION:

allows easy access to challenging sites

STRENGTHENED CARTRIDGE HOUSING :

assures consistent staple line integrity throughout the distal, middle and proximal areas of the cartridge

8-SHAPE STAPLE POCKETS:

offers more area to guide staple formation

Powered Operation

MINIMAL FIRING FORCE: 95% less than manual staplers to reduce operator fatigue

MINIMAL DISTAL MOVEMENT: 62% less than manual staplers to enhance staple line integrity

MINIMAL USER DIFFERENCE: reduce user difference to achieve consistent outcomes

An Ergonomic, Smart, Intuitive and Intelligent Linear Cutting Stapler with E-Stapling Technology
